

S Intergenerational Warfare

©STRANGE TELEMETRY Ltd. 2017

The generation divide has grown to a point of social and political warfare between rival generations within the community.

S Intergenerational Warfare

S Decline of Alphanumeric

©STRANGE TELEMETRY Ltd. 2017

The short reign of alphanumeric
is coming to an end, ousted by
emojis and reaction gifs.

S Decline of Alphanumeric

S Ageing Population

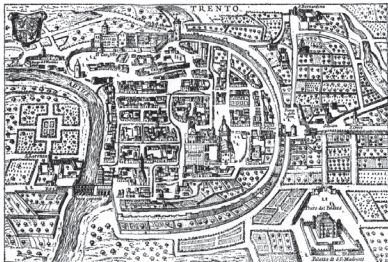

©STRANGE TELEMETRY Ltd. 2017

Advances in medical science, hygiene and healthier lifestyles lead to much longer lives for a majority of the population.

S Ageing Population

S Urbanisation

©STRANGE TELEMETRY Ltd. 2017

As predicted, the majority of the world's population live in urban centres.

S Urbanisation

S Climate Migration

©STRANGE TELEMETRY Ltd. 2017

As temperatures rise and food stocks plummet new areas become inhospitable forcing a growing wave of climate migration.

S Climate Migration

S English is no longer Lingua Franca

©STRANGE TELEMETRY Ltd. 2017

English loses its status as the
globe's Lingua Franca

**S English is no longer
Lingua Franca**

S Smart Drugs Socially Acceptable

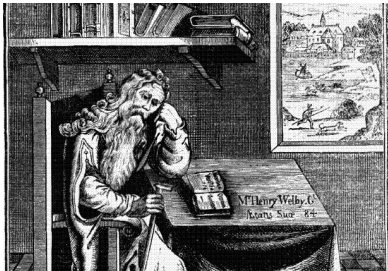

©STRANGE TELEMETRY Ltd. 2017

Drugs used to boost mental and physical performance become legalised and socially acceptable.

S Smart Drugs Socially Acceptable

S Hikikomori Epidemic

©STRANGE TELEMETRY Ltd. 2017

There is a social epidemic of
reclusive adults withdrawing from
social life into hermetic lifestyles.

S Hikikomori Epidemic

S New Renaissance

©STRANGE TELEMETRY Ltd. 2017

A period of incredible cultural and technological liberalism and growth begins.

S New Renaissance

S Class Warfare

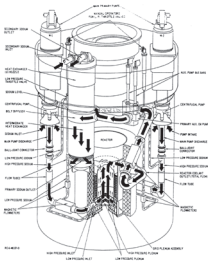

©STRANGE TELEMETRY Ltd. 2017

Brewing tensions over structural inequality boil over into social and political class warfare.

S Class Warfare

T Modular Nuclear Reactors

©STRANGE TELEMETRY Ltd. 2017

Nuclear reactors go small and mobile unleashing a new form of energy production and distribution.

T Modular Nuclear Reactors

T Bug-Ridden Everything

©STRANGE TELEMETRY Ltd. 2017

Poorly-enforced and low production standards mean that nothing works quite like it's meant to.

**T Bug-Ridden
Everything**

T Robots Everywhere

©STRANGE TELEMETRY Ltd. 2017

Robots take over as almost all parts of daily life and work are automated.

T Robots Everywhere

T Repairable Everything

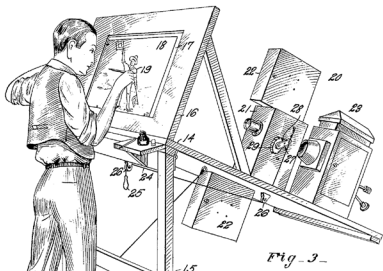

©STRANGE TELEMETRY Ltd. 2017

Product lifecycles and planned obsolescence are no more as a culture and lifestyle of repair takes hold.

**T Repairable
Everything**

Augmented Reality Everywhere

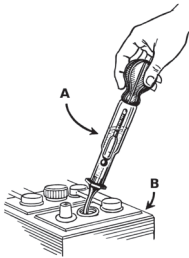

©STRANGE TELEMETRY Ltd. 2017

The world is filled with pervasive media sent through augmented reality devices.

Augmented Reality Everywhere

T Battery Storage Breakthrough

Advances in battery construction mean that energy is cheaper and easier to store. Especially from renewable resources.

T Battery Storage Breakthrough

T Desktop Genetically Modified Organisms

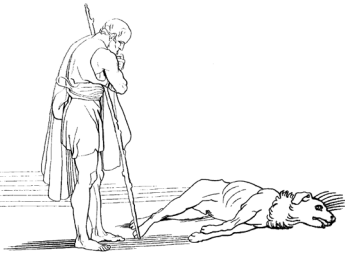

©STRANGE TELEMETRY Ltd. 2017

Cheapening biological technologies make it possible to grow your own strains at home.

T Desktop Genetically Modified Organisms

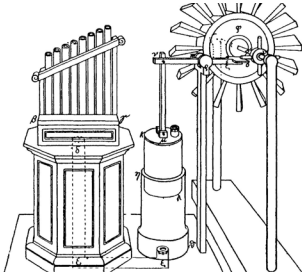

T Artificial Empathy

After Artificial Intelligence comes Artificial Empathy. Machines are able to feel and respond to human emotions.

T Artificial Empathy

T Distributed Renewables

Smaller and cheaper green energy production takes people off-the-grid as they generate their own power at home.

**T Distributed
Renewables**

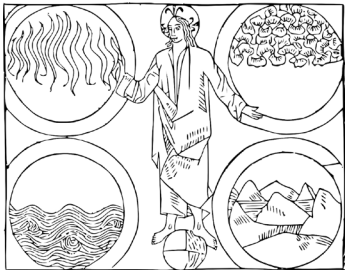

T Embedded Sensors

Sensors are everywhere, including in the body, gathering and sharing data.

T Embedded Sensors

E Rogue n Geoengineering

©STRANGE TELEMETRY Ltd. 2017

Without oversight or regulation, organisations and individuals take geoengineering into their own hands.

E Rogue n Geoengineering

En Rewilding

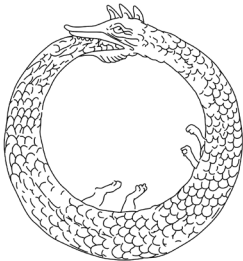

©STRANGE TELEMETRY Ltd. 2017

Human influence over the Earth is pulled back. Previously developed or ruined areas are either left to nature or purposely rewilded.

En Rewilding

E Mandated Circular n Economy

Government enforces a circular economy. Waste is greatly reduced and recycling, reuse and regeneration is maximised.

E Mandated Circular
n Economy

En Weather Weirding

©STRANGE TELEMETRY Ltd. 2017

With climate change, weather events become more extreme and unpredictable.

En Weather Weirding

E Chronic Air n Pollution

Air toxicity becomes a threat to even the healthiest. People have to be wary of going outside at peak times.

E Chronic Air
n Pollution

E Flooding n

©STRANGE TELEMETRY Ltd. 2017

With rising sea levels and more extreme weather, flooding becomes more and more regular in low-lying areas.

E Flooding n

E Antibiotic n Resistance

©STRANGE TELEMETRY Ltd. 2017

Medical science loses ground
in the war against microbial
adaptation. Antibiotics are less
and less effective.

E Antibiotic
n Resistance

E Accelerated Climate n Change

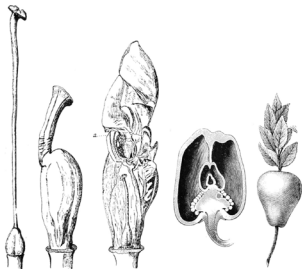

©STRANGE TELEMETRY Ltd. 2017

Attempts to halt and reverse man made climate change fail. Carbon emissions grow and extinction rates soar.

E Accelerated Climate n Change

En Rise of Veganism

©STRANGE TELEMETRY Ltd. 2017

Due to ethical and practical considerations, a vegan diet becomes standard for most people.

En Rise of Veganism

E n Carbon Credits

©STRANGE TELEMETRY Ltd. 2017

There is a cap and trade on global emissions. Carbon credits are traded as a way to encourage companies to reduce emissions.

E n Carbon Credits

E Sunset Clauses for C Companies

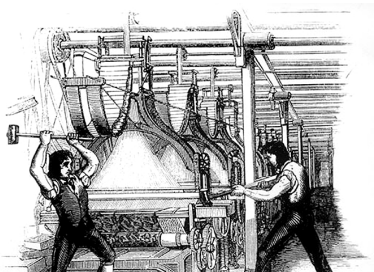

©STRANGE TELEMETRY Ltd. 2017

Companies and corporations have sunset clauses that mandate for and allow their ending after a specific time or task is finished.

E Sunset Clauses for
C Companies

E Breakdown of C Employment

©STRANGE TELEMETRY Ltd. 2017

Traditional employment ends,
peicework, freelancing and
e-lancing disrupt labour laws.

E Breakdown of C Employment

ECashless Society

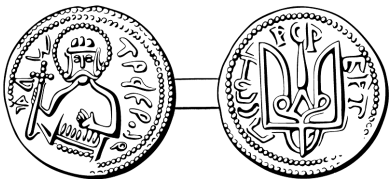

©STRANGE TELEMETRY Ltd. 2017

Society switches and grows from cash as an exchange mechanism to a gift and/or sharing economy.

ECashless Society

Local Currencies

©STRANGE TELEMETRY Ltd. 2017

Currencies are decentralised and local and single-use currencies take off in physical and digital form.

Local Currencies

E Protectionism C

©STRANGE TELEMETRY Ltd. 2017

Foreign imports are greatly taxed and restricted while domestic products are given breaks and encouragement.

E Protectionism
C

EC Resource Scarcity

©STRANGE TELEMETRY Ltd. 2017

Vital resources required for everyday life are running short.

EC Resource Scarcity

E Special Economic C Zones Everywhere

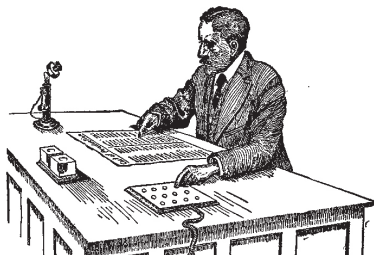

©STRANGE TELEMETRY Ltd. 2017

Special Economic Zones,
where special tax and trade
arrangements can be made, pop
up all over the globe.

E Special Economic C Zones Everywhere

Full Cost Accounting

©STRANGE TELEMETRY Ltd. 2017

Cost accounting works to the 'triple bottom line,' accounting for possible future indirect environmental social costs.

Full Cost Accounting

EC Space Colonisation

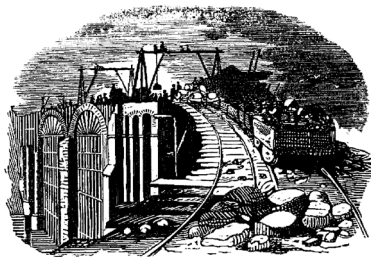

©STRANGE TELEMETRY Ltd. 2017

Humanity begins to colonise the solar system.

EC Space Colonisation

EC New New Deal

©STRANGE TELEMETRY Ltd. 2017

Massive government investment in critical infrastructure dramatically increases employment, growth and debt.

EC New New Deal

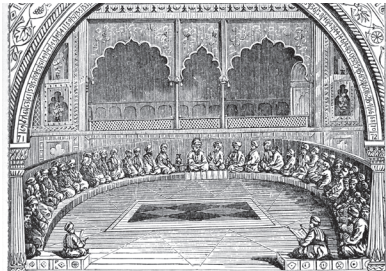

P Future Generation in Political Process

Future generations are given more say over the political process and decisions that will affect their lives.

P Future Generation
in Political Process

P Supranational Government

©STRANGE TELEMETRY Ltd. 2017

More and more power is passed into the hand of super-national government entities like the EU and UN.

P Supranational Government

P Non-Human Personhood

©STRANGE TELEMETRY Ltd. 2017

Some animals and other natural entities are given legal personhood.

P Non-Human
Personhood

P Secessionism

©STRANGE TELEMETRY Ltd. 2017

Old boundaries start to fall apart as a spate of secessions birth new microstates and more movements gain political ground.

P Secessionism

P Maximum Devolution

©STRANGE TELEMETRY Ltd. 2017

Cities, microstates and specialist communities have more and more powers over policy devolved to them from the state.

P Maximum Devolution

P Radical Transparency

©STRANGE TELEMETRY Ltd. 2017

Government and corporate processes and accounts are almost completely transparent to public scrutiny.

P Radical Transparency

P State-Church Reunificaiton

©STRANGE TELEMETRY Ltd. 2017

The influence of religion over government increases. The church becomes a major political force.

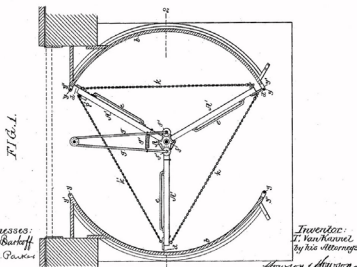

P State-Church
Reunificaiton

P End of Intellectual Property

Property

P Corporatisation of Government

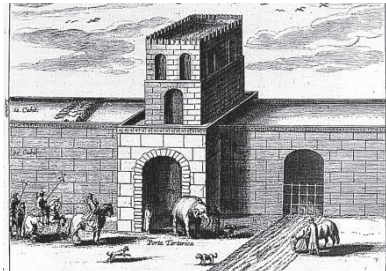

Ties between government and business become so close that the two become indistinguishable.

P Corporatisation of Government

P Heavy Borders

©STRANGE TELEMETRY Ltd. 2017

Border controls tighten as security is increased, travel becomes restricted and migration nearly impossible.
